AUROOM

Our Saunas Your Wellness

R E T U R N T O I N N O C E N C E

There's something quiet, almost unspoken, about being Nordic. Tough winters see nature come to a standstill... only to be reawakened by the powers of spring.

When woods and rivers patiently hibernate until they return to full life with the first rays of sun. When aspen and alder trees grow tall and beautiful to be reborn into pieces of fine woodwork. When after a long day you enter a sauna feeling the need to peacefully unwind and free your mind.

At Auroom, we aim to be the true ambassadors of the Nordic sauna and wellness culture, who passionately and relentlessly spread it around the world.

We create our saunas to bring you wellness. We have a long-standing passion for wood and master pure, clean, modern design, perfected to the last detail. Our saunas are tailored to meet your wishes and desires, and powered by our dedication and craftsmanship.

Our sauna traditions, which stretch over centuries, have been given a modern shape to fit into today's world and make your days more enjoyable both aesthetically and physically.

We invite you to experience that first-hand. Feel refreshed, feel reborn.

rebirth

Lumina

BRIGHTEN AND REVITALISE

Lumina is a sauna that was born to be sensual and harmonious, a place where all of its features live together.

Lumina's name perfectly describes its ability to illuminate, brighten and revitalise your senses. This model has all the necessary features to give you a full regenerating and relaxing experience.

Lumina's sophisticated design is combined with the highest simplicity and practicality. Its unique bi-colour walls and the exquisite interior design immerse you in a luxury, yet cosy, and harmonious atmosphere.

All the components of Lumina harmonise: the door, the lamp, the towel holder. The lighting is smooth and homogenous and creates a sensation of tranquillity inside the sauna.

LUMINA EXTRAS

OUTSIDE PANNELLING
Outside panelling is available for the side and back walls.

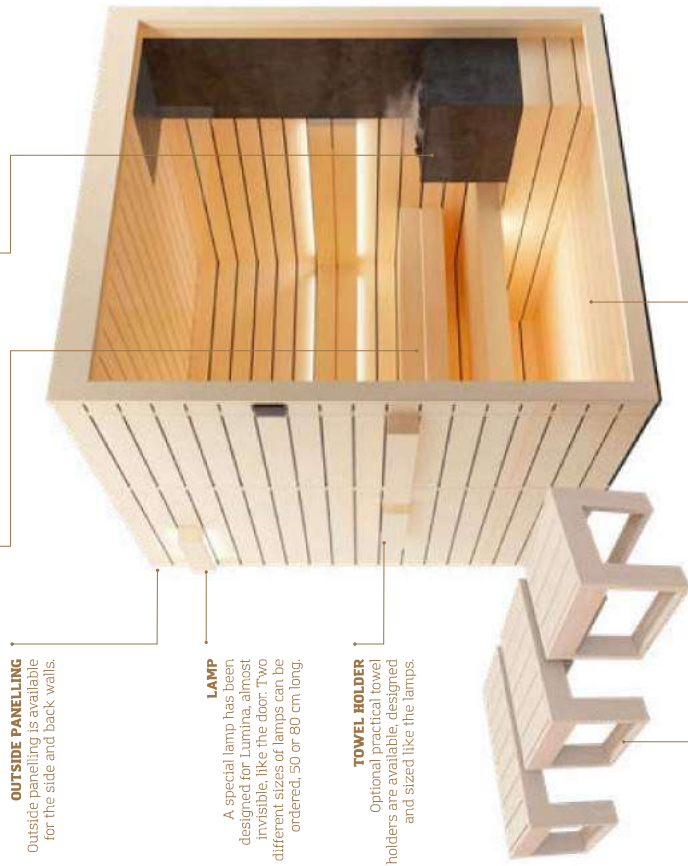

LIGHTING EFFECT
It's possible to add an extra optical fibre between the front boards of the upper bench.

HEATER GUARD STONE
The luxurious dark grey stone board creates a unique atmosphere, a stylish setting from the heater up to the ceiling.

LAMP
A special lamp has been designed for Lumina, almost invisible, like the door. Two different sizes of lamps can be ordered, 50 or 80 cm long.

TOWEL HOLDER
Optional practical towel holders are available, designed and sized like the lamps.

Lumina In 200x200 size

FLOOR
The floor is expressly designed to match the overall style. Its grids are solid, durable and come with rubber strips, which prevent the floor from being slippery and the wood from being in direct contact with humidity.

BENCH
Lumina's benches are available in three different lengths - 57, 83 and 108 cm, depending on the necessities and wishes of the sauna-owner.

LUMINA TECHNICAL FEATURES

BASIC SET INCLUDES

- PANELLING Horizontal profile SGS9 15x120 mm
- BASE FRAME Aluminium (painted black)
- EXTERIOR Front wall with glass, back and side walls covered with plywood
- INTERIOR Inside wall & ceiling panels, benches, backrest
- DOOR Glass door in front wall with self-closing hinges (smaller cabins) and wooden door in side wall with hidden hinges magnetic lock (larger cabins); handles: special design wood
- LIGHTING LED strips behind the backrests (upper and lower side) and under the lower bench

nativa

I N S T I L L A S E N S E O F C A L M

Nativa is a sauna where simplicity and rationality emerge. It is designed to instill a sense of calm and tranquility.

We call it Nativia because we want the space to feel as native as your home. Its strong relief wall panels give you a sense of safety and the comforting feeling that you belong.

Nativa's decorative profile introduces continuity to the room; horizontal wall panels broaden the sauna space, while the frontal glass wall widens the outdoor space.

This sauna model is the basis for our main design principles that apply to all appliances: they are authentic, sculptural and modern. Nativa's especially pleasant dim lighting makes it a cosy and comfortable place to be.

NATIVA EXTRAS

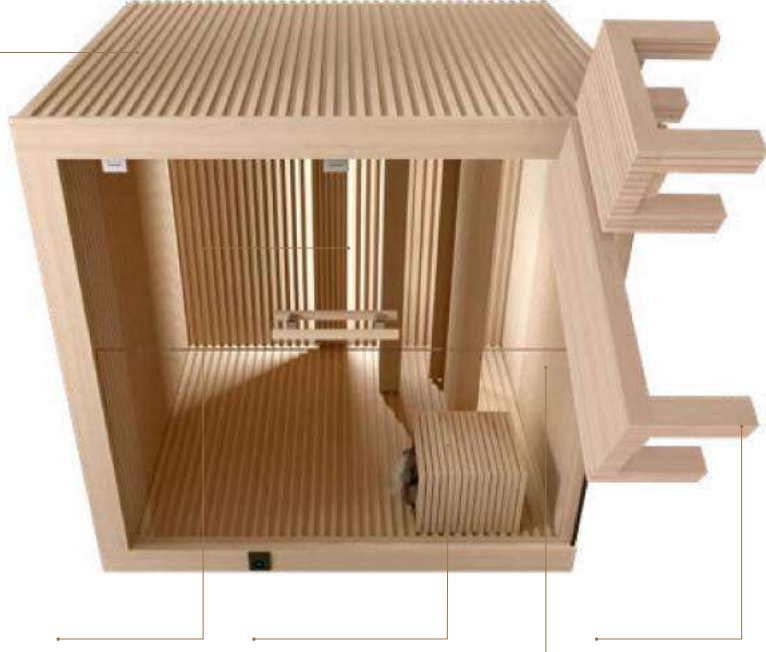

LIGHT
It is possible for you to change the light-mood in the sauna by adding an extra LED strip to the backrest's lower side.

HEATER GUARD
Nativa's wooden heater guard beautifully matches the other interior materials.

FLOOR
The floor is expressly designed to match the overall style. Its grids are solid, durable and come with rubber strips, which prevent the floor from being slippery and the wood from being in direct contact with humidity.

BENCH
The bench design corresponds to the very nature of Nativa itself: solidity and safety. There are two different lengths available – 57 cm and 115 cm, depending on the necessities and wishes of the sauna-owner.

OUTSIDE PANNELLING
Outside panelling is available for the side and back walls.

Nativa in 200x200 size

NATIVA TECHNICAL FEATURES

BASIC SET INCLUDES

WOOD

The **aspen** wood is a great choice for those who enjoy a sauna-room in a beautiful, light tone and smooth texture. The **alder** is preferred by many sauna enthusiasts because of its warm-hearted reddish colour and nice texture. The **thermo-treated aspen** has a brilliant brownish colour that adds warmth and character to the sauna atmosphere. In addition to the great visual effect, the thermo-treated wood is practical as it is stable and resistant to the humidity and temperature changes.

UPLIFTING HARMONY

Libera

Libera was born to give you the opportunity to design the room according to your desires. It is possible to choose between a wooden or glass front wall and, depending on your preferences, you can have it with or without a backrest.

This sauna enables the addition of an extra wall outside, a sort of external continuation of the internal sauna's walls.

Outside, the vertical wall panels merge perfectly into surrounding rooms; continuing inside, these upright lines create a feeling of ease and lightness.

Libera's name reflects its nature: a place that lifts up your spirit, gives you a sense of freedom and instills feelings of beauty, wellness and harmony.

LIBERA EXTRAS

HEATER GUARD

Libera's wooden heater guard beautifully matches the other interior materials.

LAMP

Specially designed optional extra lamps can be added to the side walls.

OUTSIDE PANELLING

Outside panelling is available for the side and back walls.

Libera in 200x200 size

BACKREST

The backrest comes with a built-in LED strip and adds light to the sauna-room.

FLOOR

The floor grids are solid, durable and come with rubber strips, which prevent the floor from being slippery and the wood from being in direct contact with humidity.

OUTSIDE WALL

Libera offers the opportunity to add outside walls. An extra wall set is 112 cm long and can be extended if a longer wall is desired.

LIBERA TECHNICAL FEATURES

BASIC SET INCLUDES

ENJOYMENT

electa

Unique Electa seduces everyone with its clean and clear looks, and delivers the perfect amount of charming sophistication at the same time.

Electa is not a stray name but sums up the emotions that will surface in a person relaxing in this exclusive sauna. It is a place where one can easily feel as though they have been elected for something important in life.

Clean and Nordic looking Electa belongs to the elite. A design in which short wall elements of differing widths cast playful shadows to create a characteristic kinetic illusion. It forms an elegant pattern that is neither vivid nor aggressive.

Perfectly dimmed lighting makes it comfortable, and the full glass front promotes spaciousness. It is a sauna in which the eyes can rest, the soul is pleased and the mood is lifted.

ELECTA EXTRAS

OUTSIDE PANNELLING
Outside panelling is available for the side and back walls.

familia

Familia is a classic sauna with vertical wall panels, a beautifully crafted wooden front and a glass door.

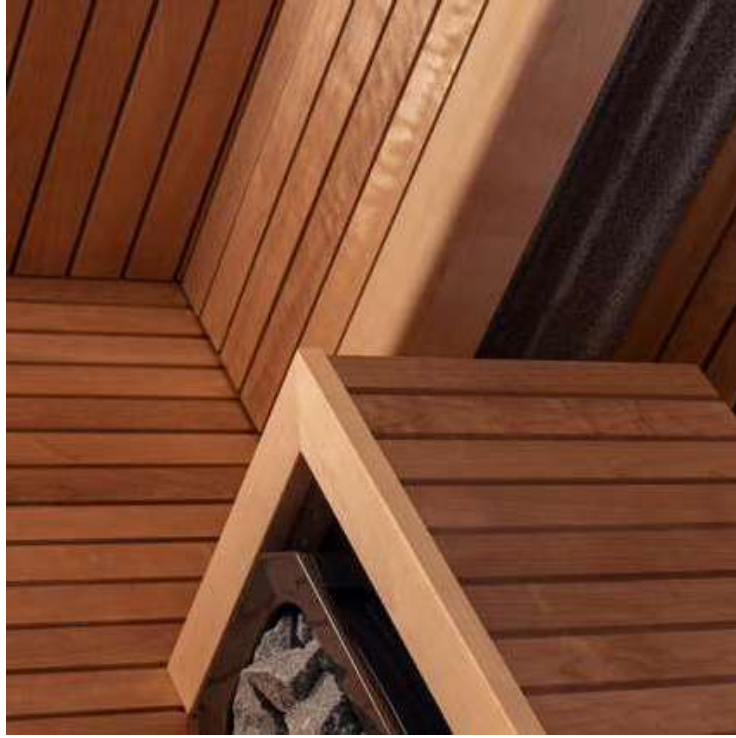

The design features narrow and sharp-edged wall profiles that give this otherwise traditional sauna a modern and intriguingly fresh look. It'll fit perfectly anywhere - be it a home, gym, hotel room or some other place.

This sauna is universal and unpretentious; the perfect place to rest. The minimalist style, cozy, dim lighting and closed front induce a genuinely reassuring atmosphere inside.

This is Familia, familiar and true like an old friend. A simple sauna meant for safe and calm recreation.

FAMILIA EXTRAS

Varia

REJUVENATE YOURSELF

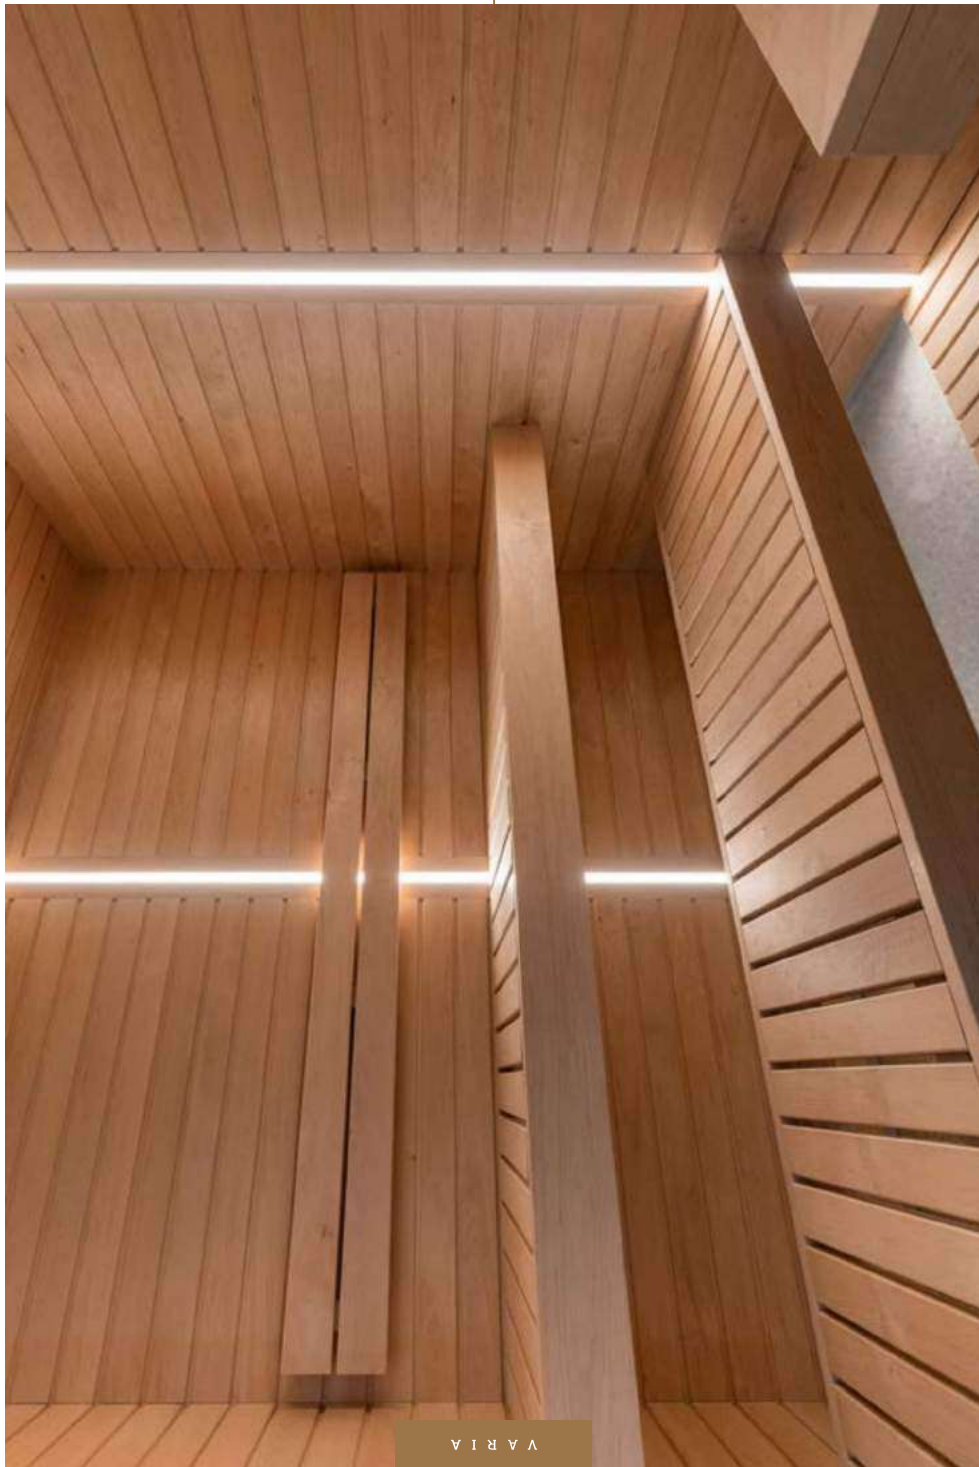

Varia is an elegant yet practical corner-fitting model that stands out due to the original vertical light scheme built into the walls.

The name Varia stands for all the things that bring change to everyday life. An ordinary sauna with some altered details to deliver extra freshness and fend off the routine.

The crosswise laid-out bench boards and minimalist heater guard add an airy and spacious touch to the small sauna room.

Varia's creative, beautiful light scheme and carefully designed interior makes it the ideal place for you to rejuvenate.

irradia

A spectacular sauna with bold looks where your body is warmed by infrared technology and your eyes are pampered by the contemporary design.

One glance at Irradia reveals the discrete harmony of wood and glass. By skillfully combining those two materials, we achieved a semi-transparent front, which is both revealing and concealing.

On one hand, the name reflects the main property of Irradia - infrared rays. And on the other hand, the name hints at the courageous and radiant design.

The infrared technology allows you to breathe more easily as it gently warms you up from the inside out while keeping the air inside the cabin pleasantly mild.

NATURALLY REINVIGORATING

natura

The Auroom outdoor sauna is an oasis of calm in an untamed environment. Impeccable design and remedial properties chime with the beauty of nature – what else could one wish for?

This is Natura, a sauna that softly embraces and cherishes its visitors. A perfect place to wholeheartedly enjoy the healing sauna, surrounded by luxurious ambiance.

The exquisite deep brown of the terrace charms with its refined elegance outside while the warm colour of the heat-treated aspen coddles you inside.

The large front window opens to an enjoyable view of the outdoors. Moreover, on the terrace, one can experience the surrounding nature without filter – see its beauty, feel its breath, winds and scents.

Everything about this sauna speaks quality. The exterior cladding is designed to withstand severe climate conditions; the Nordic spruce wood is thermo-treated, brushed and painted.

The walls, floor and roof are efficiently insulated and the solid roof construction can bear heavy loads of snow. All of these components together create a sauna with high thermal insulation properties and excellent durability.

NATURA TECHNICAL FEATURES

EXTERIOR & TERRACE

- Outside cladding: thermo-treated and brushed Nordic spruce, C26 profile 19x141 mm, black finish with UV protection
- Solid roof construction can withstand heavy loads
- Waterproof roofing material suitable for outside
- Rain gutter: square design, black
- Terrace cladding and boards material: thermo-treated pine, brown finish with UV protection

DOORS & WINDOWS

- Entrance door: solid door made from thermo-treated Nordic pine, door frame made from knot-free thermo-treated radiata pine, brown finish with UV protection, incl. handles and lock with black oxide finish
- Windows: frames made from knot-free thermo-treated radiata pine, brown finish with UV protection, triple-glazed tempered glass incl. selective glazing
- Inside door: 8 mm tempered glass, RV hinges, Premium handle wood-metal
- Glass colour in windows and inside door: clear (bronze option available)

INTERIOR

- All interior details made from high quality thermo-aspen
- Inside wall & ceiling panels: horizontal Rombo profile 27x90 mm
- Bench in dressing room
- Benches and backrest in sauna room

LIGHTING

- Terrace and dressing room: outdoor spot LED lights (IP65)
- Inside the sauna: warm white light LED strips behind the backrest and under the benches, lights are dimmable with remote control unit

AVAILABLE EXTRAS

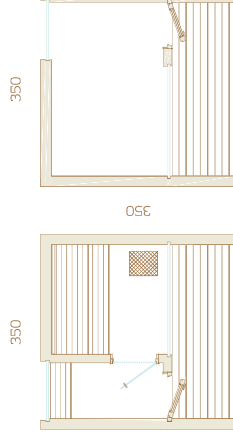

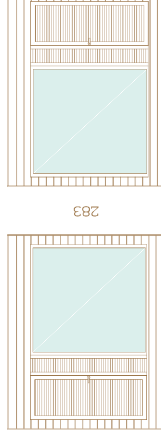

- Floor grids with rubber strips
- Floor heating mats
- Electric panel
- Electric blinds for sauna front window with remote control unit

SUITABLE EQUIPMENT

- Electric heater Auroom Alta 12 kW with control unit Auroom Impera
- Wood-burning heater Auroom Fora
- Sound: speakers, Bluetooth player

NATURA SAUNA

NATURA LOUNGE

One of the best features of Natura is the modularity. In addition to the sauna cabin, there is a lounge module designed with the same size and look.

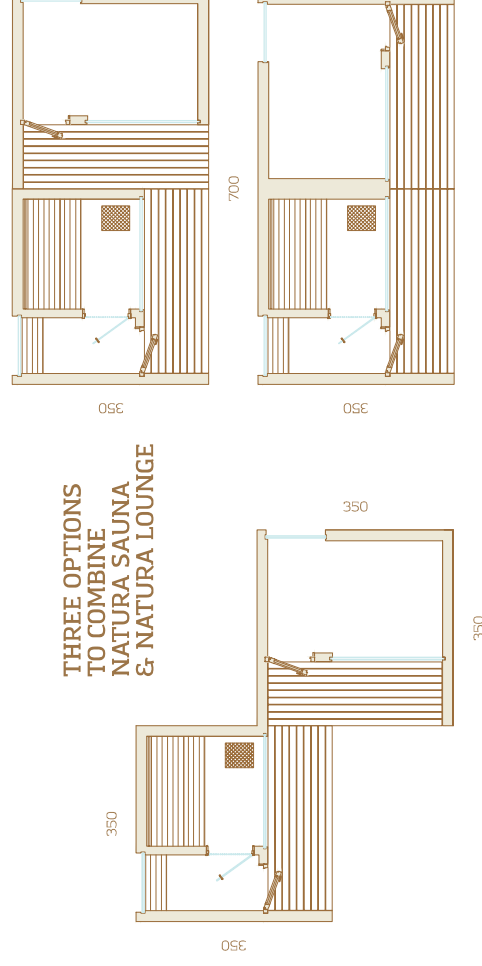

One could install two saunas next to each other with a shared terrace or build various units from the sauna and the lounge.

There are many combinations to create a cosy outdoor space, limited only by imagination.

Recommended
for 4/5 people

THREE OPTIONS TO COMBINE NATURA SAUNA & NATURA LOUNGE

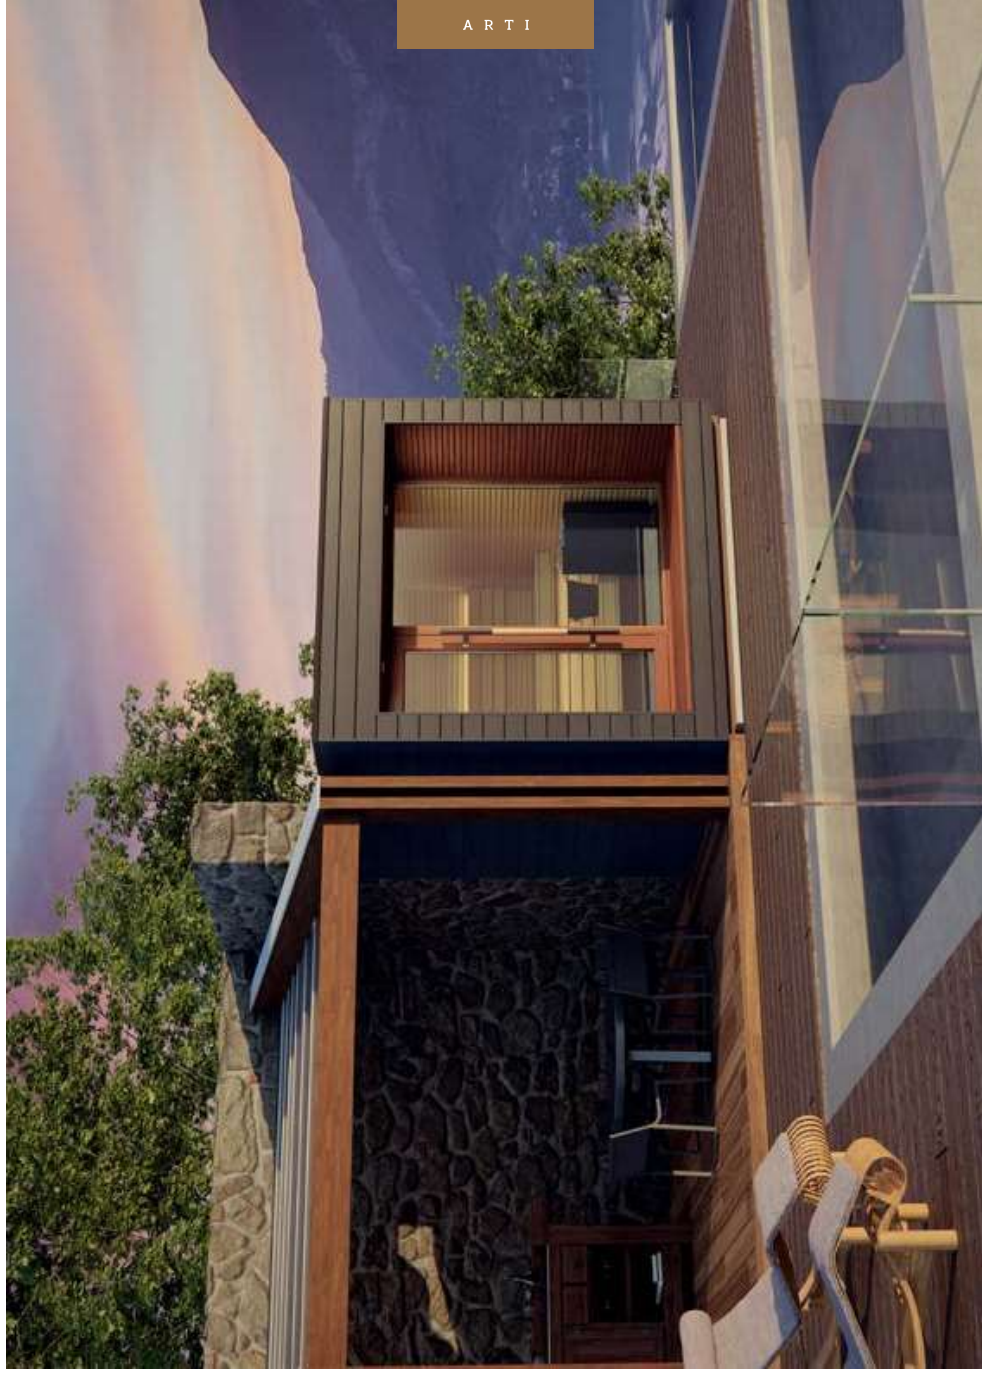

NATURALLY REINVIGORATING

arti

Attractive and compact, Arti is a smaller version of the popular Natura model. While it shares many properties with its larger cousin, its smaller size makes it easier to install.

Where there are limitations in either budget or space, Arti is the perfect way to enjoy the healing properties of the sauna and bring a little bit of luxury into your home.

ARTI TECHNICAL FEATURES

EXTERIOR & TERRACE

- Outside cladding: thermo-treated and brushed Nordic spruce, horizontal C28 profile 19x141 mm, black or grey finish with UV protection
- Solid roof construction can withstand heavy loads
- Waterproof roofing material suitable for outside
- Rain gutter: square design, black
- Terrace cladding and boards material: thermo-treated pine, brown finish with UV protection

DOORS & WINDOWS

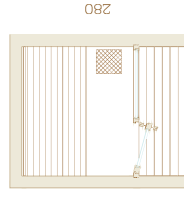

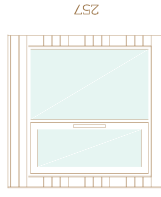

- Double-glazed tempered glass
- Quality pine frames, brown finish with UV protection
- Stainless steel/wood handles and lock with black oxide finish

INTERIOR

- Inside wall and ceiling panels: horizontal Rombio profile 27x90 mm, choice of aspen, alder or thermo-aspen.
- Benches, bench skirt, backrest, floor grids and an optional heater guard
- Drainage in backside of sauna floor

LIGHTNING

- Terrace: outdoor spot LED lights (IP65) with switch on terrace
- Inside the sauna: LED strips behind the backrest and under the benches, lights are dimmable with remote control unit

Recommended
for 4/5 people

SUITABLE EQUIPMENT

- Heater: Auroom Alta 12 kW, control unit Auroom Impera
- Sound: speakers, Bluetooth player

PACKING & HANDLING

Prefabricated - ready to use module

TAILOR - MADE

At Auroom, we are able to offer exquisite tailor-made options, be it a sauna for private or public purposes. Using the latest technologies, our capable designers, technologists and craftsmen are happy to master even the most sophisticated projects. Tailor-made saunas and special solutions are our strengths.

We know wood and its properties. We know how to plane, glue, bend and paint it - whatever is needed to serve great designs.

A large range of profiles is available directly from our factories. In addition to the local Nordic wood species, we process many other types of timber to offer a wider selection of sizes, colours and patterns.

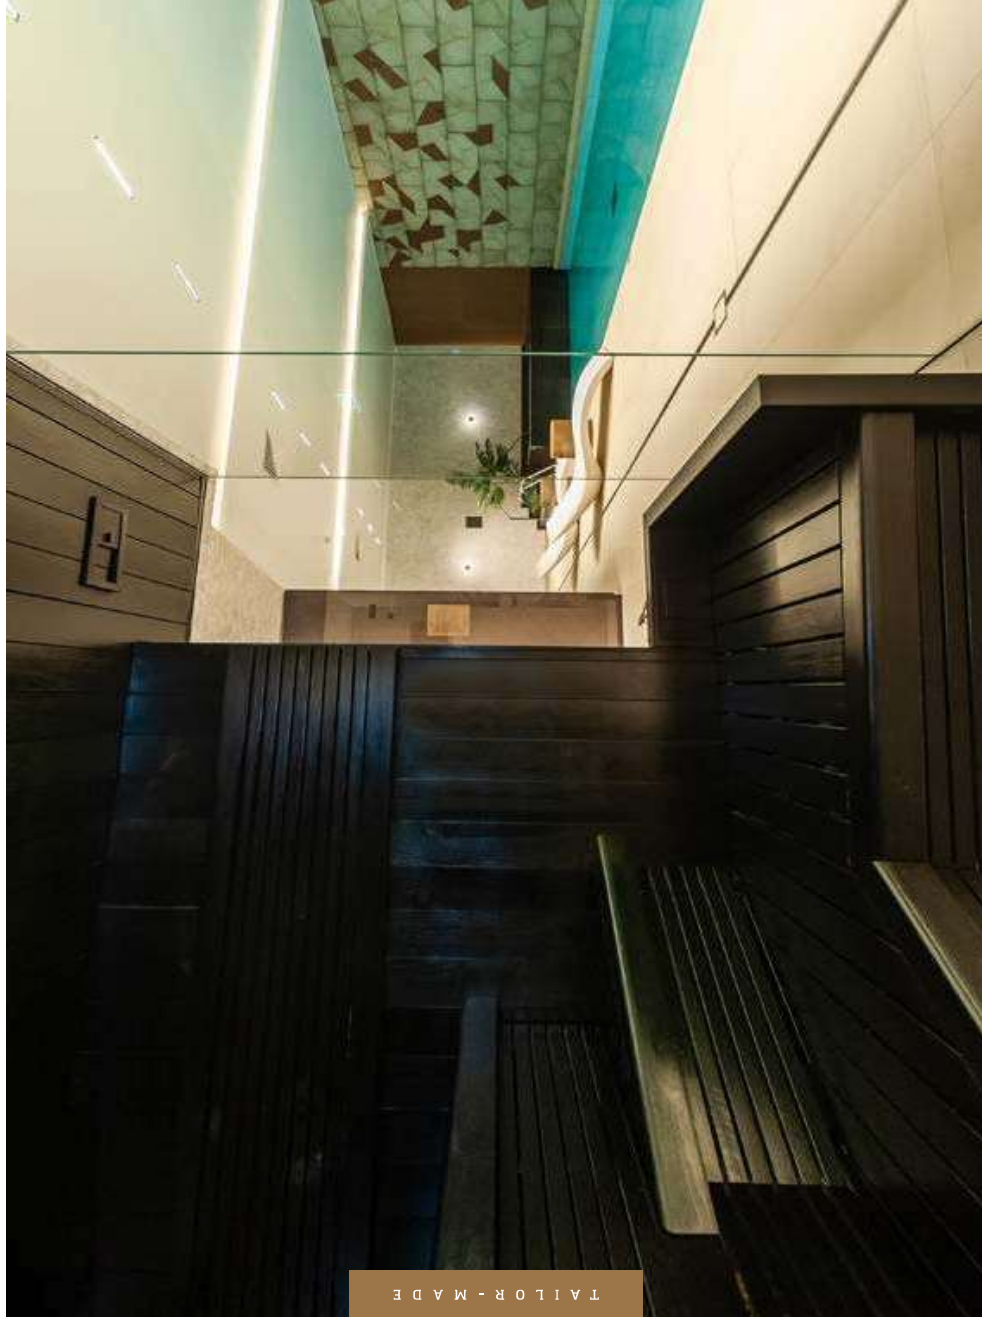

Auroom saunas are made of the finest wood available and our thermo-treatment facilities raise its qualities to an even higher level. As well as the practical value, the heat-treatment offers great visual effects: the charming brownish colour can be lighter or darker depending on the wood type and heating procedure. There is also brushing, a finish that beautifully highlights the texture of the wood.

The use of painted wood creates another range of options for designing a sauna room. In Nordic countries, the combination of pure black and white colours is increasingly popular; however, there are alternative tones available to let your fantasy take flight.

We are here to listen to your necessities. Tell us your vision and we will help you make it a reality.

EQUIPMENT

Auroom electric heaters are high-quality products that create an authentic sauna experience. All heater models have vaporizer versions for flexible climate creation options – from hot and dry to mild and humid.

Mura is a wall mounting model, Alta is a floor-standing model and Latea is a hidden, under-bench model.

DESIGNER

The standard range of Auroom saunas was created in tight cooperation with the experienced and talented Italian architect Luca Donazzolo.

Luca graduated from the University of Architecture of Venice and worked at first with small urban projects and residential ones. Later, he concentrated on the design of places for wellness, fitness, spa and beauty.

Additionally, Luca has specialized in energy efficiency, environmental sustainability and the construction of wooden buildings.

LUCADONAZZOLO.IT

COMPANY

Auroom is one of Europe's leading manufacturers of ready-made saunas. The company has more than 20 years of experience in the sauna world and its products have reached more than 30 countries around the globe. Auroom saunas are found in private homes as well as in public wellness centres, such as gyms, hotels and spas.

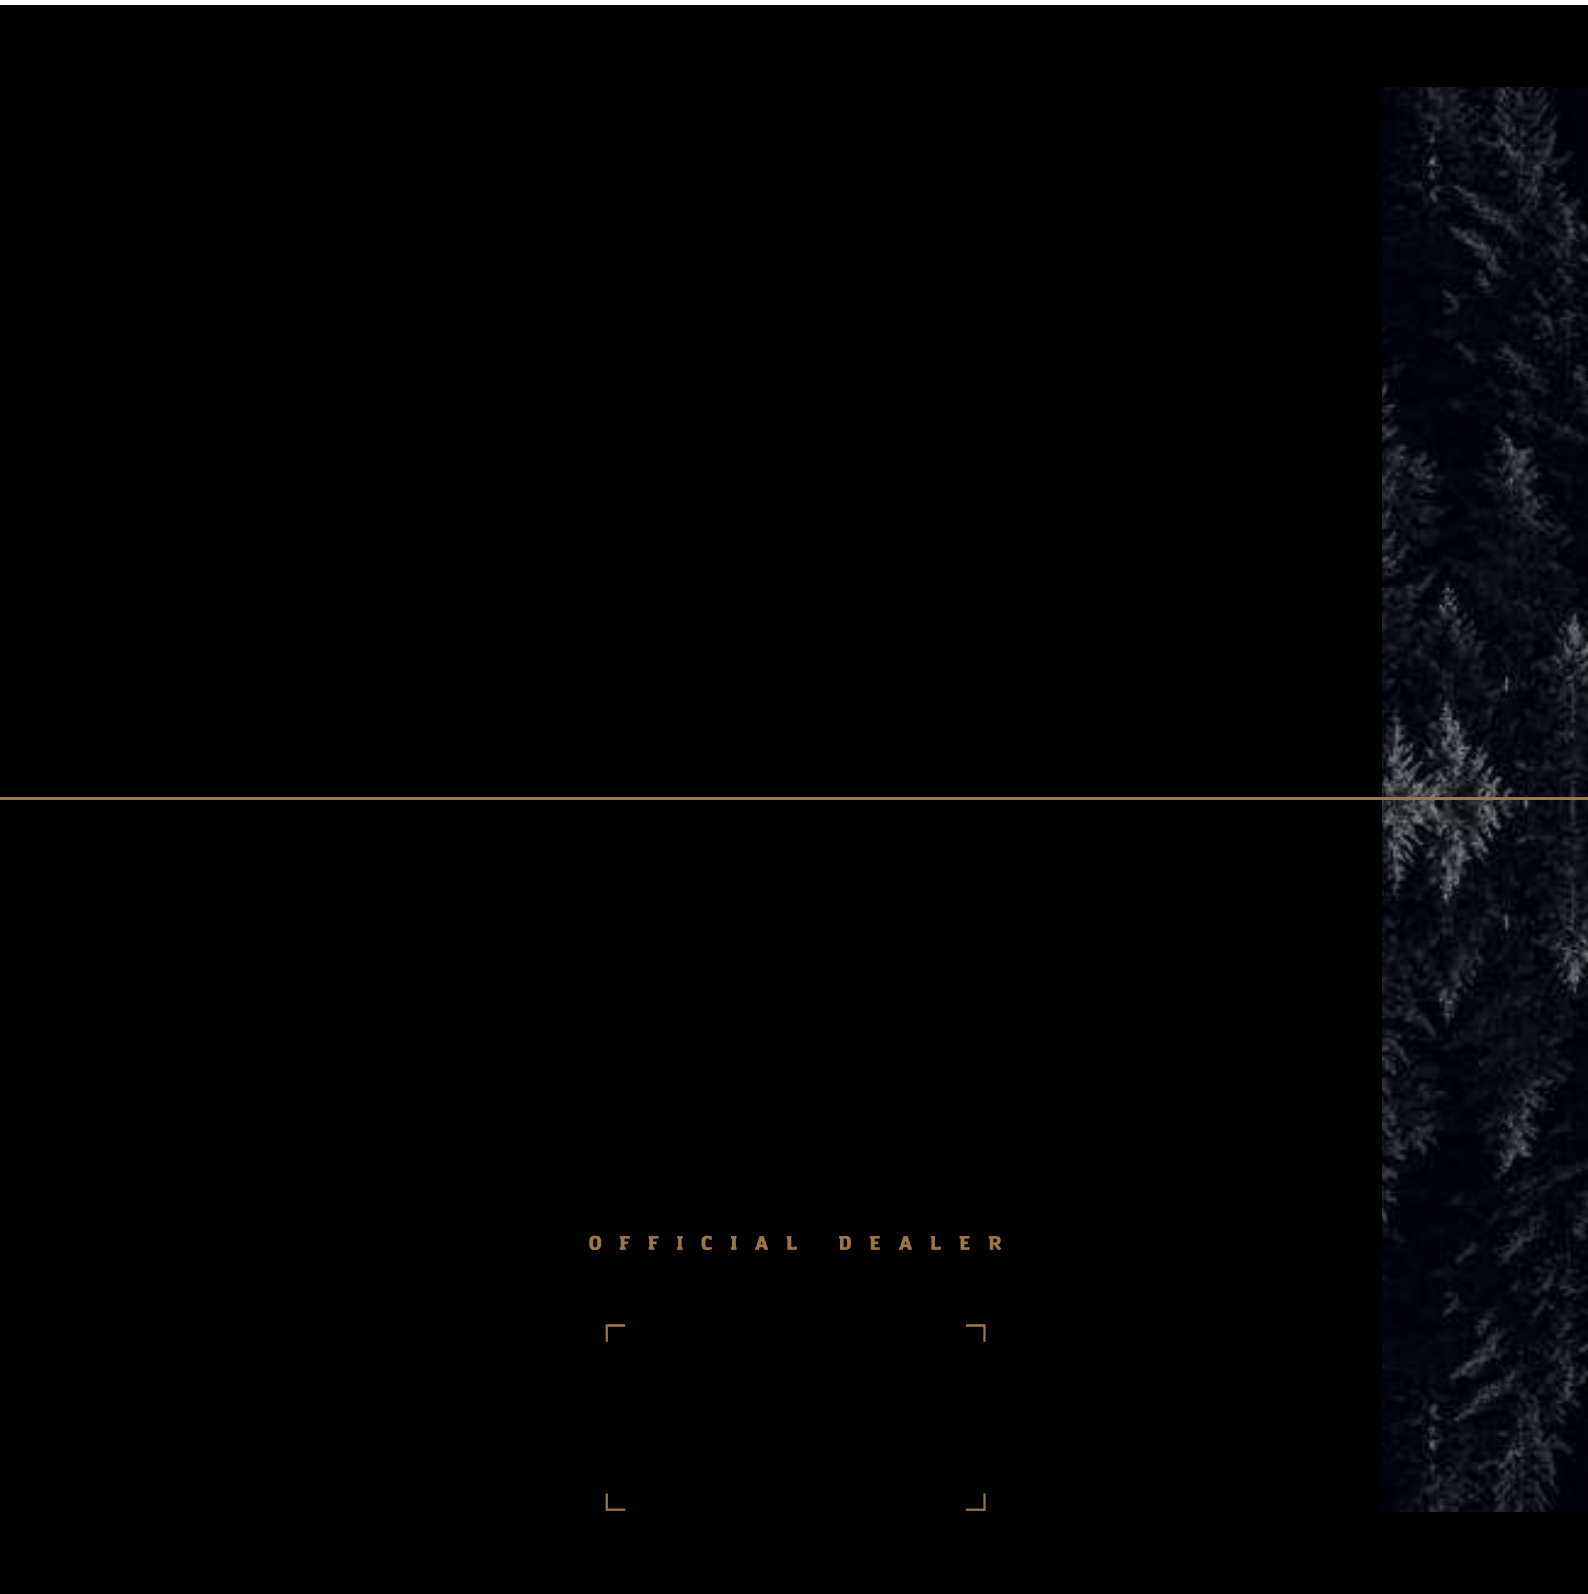

Outstanding product quality, reliability and the communication we maintain with our partners have been the key factors to our success. Take a look at our work. We would be happy to hear from you!
